NATURE UNLEASHED FIELD EXPERIENCE GUIDELINES

REQUIREMENTS

In order to qualify for reimbursement of transportation costs for field experiences taken in conjunction with the *Nature Unleashed* unit, field experiences:

- Must have a connection to the *Nature Unleashed* unit
- Must occur at a natural, outdoor area or ecosystem
- Must provide students with opportunities to apply inquiry and field investigation skills and knowledge gained through activities in the *Nature Unleashed* unit such as collecting, investigating, and documenting data using science notebooks and science tools as referenced in the introductory section of the Teacher Guide (i.e. thermometers, magnifying glasses, insect nets, field guides, etc.)

Meaningful opportunities for students to apply the knowledge and skills fully to the field experience include:

- Pre-trip discussion for students to learn more about the field experience destination and develop questions that relate to curriculum themes covered in the *Nature Unleashed* unit
- Ample time for students to conduct simple, hands-on field investigations that allow students to:
 - Observe the living and non-living components of the ecosystem and the interactions among those components
 - Collect data related to and in support of their questions
- Ample post-trip time for students to:
 - Organize their data
 - Prepare and present short class presentations on their field investigations and findings/conclusions

Examples of destinations include:

- Conservation area
- State park
- National forest
- City or county park
- Private property with areas representative of Missouri's ecosystems included in the *Nature Unleashed* student book
